Market Overview

The MSCI India fell 10.7%¹ in US dollar terms in November as investor confidence remained weak. Sentiment declined further following the terrorist attacks in Mumbai. Meanwhile, the MSCI China Index gained 22.0%¹ in US dollar terms. The Fund dropped 4.8% in SGD terms, underperformed its benchmark returns which declined 1.4%.

Bank of China advanced as investors recognized attractive valuation despite its vulnerability to a global economic slowdown. Travelsky Technology had a strong rebound in November with sentiment turning positive as traffic growth recovery is anticipated. Overweight ITC Ltd., whose principal business is to manufacture cigarettes and tobacco, had a strong performance. One of the leading detractors from performance was Gome Electrical Appliances. Shares came under pressure at the end of the month when it became clear that Chairman Wong was being investigated regarding a financial matter unrelated to Gome. AAC Acoustic was also a laggard due to order cuts. Focus Media also declined as sentiment regarding ad spend dampened due to limited forward visibility and the weak seasonality of online advertising.

We exited Crompton Greaves, a machinery and engineering company, as the European recession and slowing consumer demand is likely to pressure margins as credit costs increase. Suzlon Energy was also exited due to immediate challenges facing alternative energy solutions. We also sold Bank of Baroda due to declining interest income as advances come under pressure with declining demand from the corporate sector where the bank's loan book is heavily concentrated. A new position was initiated in Bharat Petroleum. Attractive valuation along with capacity growth and moderating earnings volatility make it an appropriate addition to the Fund.
